

3 January 1989

To: Whom It May Concern

From: Dr. David Flaten
Chair, Department of Theatre Arts

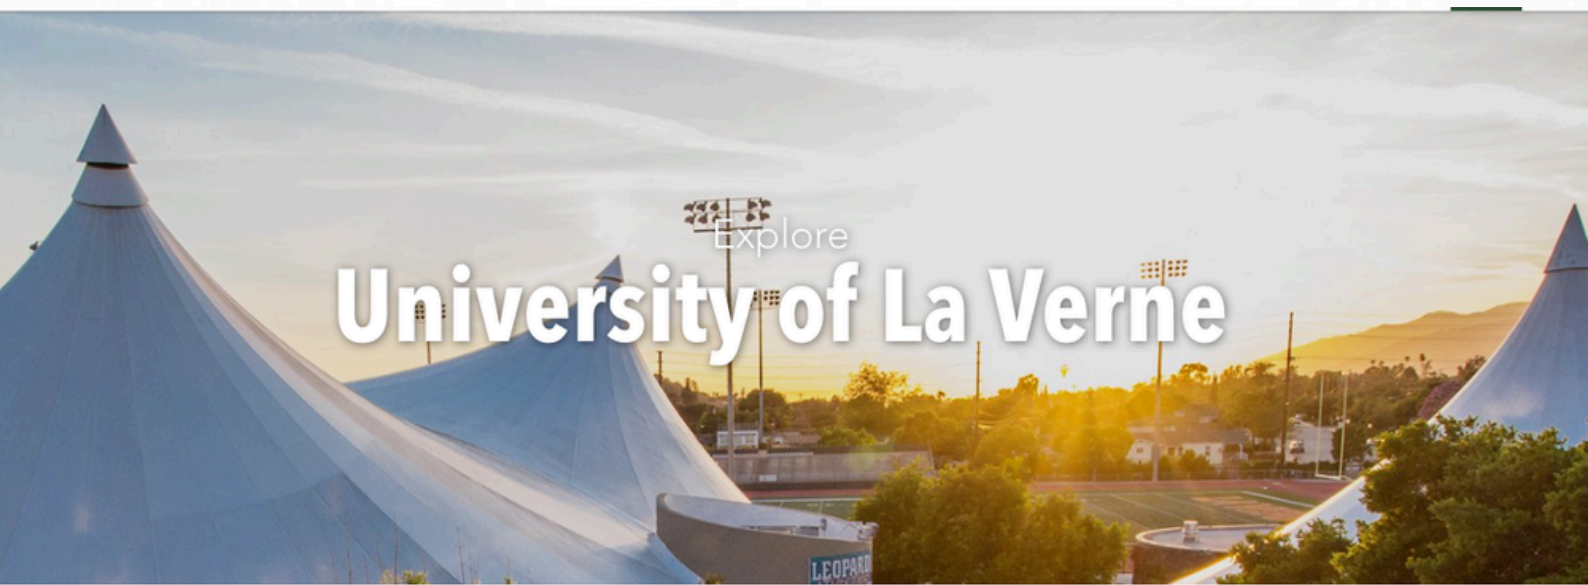

Re: Panos Ghamanian

This is a letter of personal recommendation for Panos Ghamanian. I have known Panos since 1983 when he worked for me on a variety of design and technical projects in the theatre department at the University of LaVerne. He also worked for me on several construction projects outside of the University, and has maintained contact with me through the years.

Panos is a wonderful fellow! He is an excellent designer -- his design for a production of Chekhov plays that toured from the ULV theatre department was one of the outstanding student designs done here through the years. He is a hard worker, conscientious, as well as imaginative. He is idealistic, and his background and interests range from the Fine Arts to engineering.

From my experience with Panos, I would regard him as an excellent employee prospect, loyal, diligent, ready to commit all of his energy to the task at hand. I would highly recommend him to you. If I can be of further assistance, please call me either at the theatre department (714) 593-3511 x4551, or at my home (714) 593-3343.

Sincerely,
